PROFESSIONAL SUMMARY

Front-End Developer with about 2 years of experience building production web applications with React.js, Next.js and TypeScript. Delivered e-commerce platforms, CRM, CMS and admin dashboards, ERP, HRMS, POS and university portals for clients in Egypt and Saudi Arabia. Experienced in REST API integration, authentication flows, state management (Redux Toolkit, React Query, Context API), Arabic/English localization with RTL, SEO, and SSR/SSG with Next.js. Builds reusable, responsive component libraries, improves page performance, and deploys projects to production on Hostinger, MonsterASP.NET and Vercel.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js (App Router, SSR, SSG), React Router

State Management & Data Fetching: Redux Toolkit, React Query, Context API, Custom Hooks

UI & Styling: Tailwind CSS, Material UI, Ant Design, Chakra UI, Bootstrap, Sass, GSAP, Three.js, Responsive Design, Atomic Design

Forms & APIs: REST APIs, Axios, React Hook Form, Formik

Authentication: Authentication & Authorization, JWT / Refresh Tokens, Firebase Authentication (OTP Verification), Role-Based Access Control

Features: Localization (i18n, next-intl), RTL Support, SEO Optimization, Payment Gateway Integration (Paymob: Card, Apple Pay), File Uploads, PDF/CSV Export

Deployment & Hosting: Hostinger, MonsterASP.NET, Vercel, GitHub Pages, Production Builds & Environment Configuration

Tools: Git, GitHub, Linux, Figma, Postman

Databases (basic): MySQL, PostgreSQL

PROFESSIONAL EXPERIENCE

Front-End Developer | React.js & Next.js

SRAVICO (marketing & software company, Egypt / Saudi Arabia) | Jul 2026 – Present

AFR E-Commerce Platform – afr.com.sa

- Develop the front end of a bilingual (Arabic/English) electronics e-commerce store for the Saudi market with Next.js and TypeScript.
- Built product listing and product details pages, plus search with debouncing to reduce unnecessary API requests.
- Implemented phone authentication with OTP verification using Firebase Authentication, plus shopping cart, checkout and order management.
- Integrated the Paymob payment gateway for card and Apple Pay payments; handled localization (i18n), full RTL layouts and SEO metadata.

Tech: Next.js, React.js, TypeScript, Tailwind CSS, Axios, REST APIs, Firebase Authentication, Paymob

AFR E-Commerce Admin Dashboard – afr-dashboard.sravico.com

- Developed screens of the store admin panel covering orders, products, inventory, promotions, customers, reports and site content.
- Built dynamic content management for the About and Why AFR sections, store statistics and policy pages, with reusable forms integrated through Axios.

Tech: React.js, TypeScript, Axios, REST APIs

SRAVICO CRM Dashboard – crm.sravico.com

- Developed the internal CRM front end for leads, proposals, meetings, services, budget and employees, with KPI dashboards for the sales pipeline.
- Built roles, lookups and settings screens, plus dark mode, notifications and global search.

SRAVICO CMS Dashboard (in development)

- Building the website CMS with Next.js App Router and an Atomic Design component library: secure httpOnly-cookie authentication with token refresh, a page editor with draft, publish and version history, media uploads, users and roles, and inbox screens with PDF/CSV export.
- Supporting Arabic and English across the dashboard with next-intl and RTL.

Tech: Next.js, TypeScript, Tailwind CSS, next-intl, REST APIs

SRAVICO Company Website – sravico.com

- Developed the company website pages, including the Careers page, with light and dark themes and responsive layouts.

- Applied SEO best practices (metadata, structured pages) and Next.js rendering (SSR/SSG) for fast, indexable pages.

Tech: Next.js, React.js, TypeScript, Tailwind CSS

Deployment & Hosting

- Deployed and maintained front-end builds in production on Hostinger and MonsterASP.NET (on the same hosting as the back-end API).
- Managed production builds, environment variables and API base URLs across environments.

Junior Front-End Developer | React.js & Next.js

Areez Information Technology – Nasr City, Cairo (areez.co) | Jul 2025 – Jun 2026

EDUSIS University Portal – Student & Instructor Dashboards – Student portal | Instructor portal | Demo

- Developed separate student and instructor dashboards for a Saudi university, covering grades, schedules, attendance and exams.
- Implemented Arabic/English localization (i18n) with RTL support and built reusable components and custom hooks.
- Integrated REST APIs and managed shared state with Context API.

Tech: React.js, TypeScript, Tailwind CSS, Context API, i18n

POS System (Point of Sale) – new.foodstage.co | Demo

- Built the POS front end: branch and shift selection, product ordering, discounts, customer registration and invoice generation.
- Structured the app with reusable components and custom hooks, with Context API for cart and session state.

Tech: React.js, JavaScript, Tailwind CSS, Context API

Kawader HRMS

- Contributed front-end modules to the company's HR management system, building responsive screens and integrating them with REST APIs.

Areez Landing Page – react.areez.co

- Developed the responsive company landing page with React.js.

Junior Front-End Developer | React.js & Next.js

Dr.Code Software Solution – Faisal, Giza (doctor-code.net) | Feb 2025 – Apr 2025

Text Station Dashboard

- Built a multilingual admin dashboard with dark and light themes and responsive layouts.
- Managed application state with Redux Toolkit and server data with React Query; integrated REST APIs through Axios.
- Built UI with Tailwind CSS, Material UI and Chakra UI components.

Tech: React.js, Next.js, TypeScript, Redux Toolkit, React Query, Axios, Tailwind CSS, Material UI, Chakra UI

Junior Front-End Developer | React.js

Easy Soft – Maadi, Cairo | Jan 2025 – Feb 2025

- Developed dashboard screens for business systems used by 500+ users: Factory Management System (sales, inventory, employees, finance), CRM Chain ERP (customer visits, issues, contract obligations), Sales & Visits Management and HRMS (salaries, deductions, working days, insurance).
- Improved page loading performance by 30%.

Tech: React.js, JavaScript, Ant Design, Tailwind CSS, Context API

FREELANCE PROJECTS

Khamsat & Mostaql (remote) | 2025

- **University Management System (UMS):** React.js dashboard with four roles (Admin, Student, Doctor, Teacher), QR-code attendance, course management and absence warnings (Live | GitHub | Demo).
- **Drag and Drop Hiring Interface:** interactive React.js interface deployed on Vercel (Live | Demo).
- **Landing Pages:** responsive client landing pages with React.js and Tailwind CSS (Bab Al-Ezz Workshop | Company landing page).

TRAINING

Front-End Development (React.js & Next.js), Route Academy – Cycle 44 (Certificate) | Sep 2024

- E-commerce training project with authentication, cart and payment gateway integration (Live | GitHub | Demo).

EDUCATION

Bachelor's Degree in Computer Science, Thebes Academy – Cairo | Sep 2020 – May 2024

LANGUAGES & SOFT SKILLS

Languages: Arabic (Native), English (Intermediate)

Soft Skills: Communication, Problem Solving, Time Management, Attention to Detail, Critical Thinking
